Re: RI/FS Work Plan

Dear Jon:

I am submitting on behalf of the Medley Farm Site Steering Committee five (5) copies (one is unbound) of the final draft of the RI/FS work plan in the Medley Farm Site. As discussed with Wayne Lee, EPA agreed to allow the Steering Committee an extension to June 13, 1988 to submit the work plan. The Steering Committee's response to EPA's comments on the initial draft of the work plan did not change from our June 9 submittal. Therefore, I am only enclosing copies of the final version of the work plan. I believe that the changes contained in this version are minor when compared to the June 9 submittal. However, I ask that you replace the June 9 documents with the ones enclosed. Thank you for granting the Steering Committee the extension. We look forward to receiving EPA's approval of the work plan and beginning the work.

Sincerely,

Les Oakes
